TODAY & TOMORROW

APRIL 26-MAY 9, 1986

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

Seniors over the age of 65 will have the opportunity to learn about several different San Francisco health care plans available to them at a special forum on Saturday, May 3, from 1 to 3 p.m. at UCSF-Laurel Heights, 3333 California Street.

The free forum will include a discussion on how to be an informed consumer of health coverage by Robin Sedman, coordinator for Health Insurance Counseling and Advisory Program, Legal Assistance to the Elderly, and a panel discussion on six San Francisco health plans for seniors, moderated by Adele Corvin, chair of the SF Adult Day Health Task Force.

The program is sponsored by the UCSF Office of Public Service Programs and the SF Institute on Aging at Mount Zion. For further information call x63206.

Millberry Union PRO is sponsoring the 1986 Spring Mixed Doubles Tennis Tournament on Saturday and Sunday, May 3 and 4, at the Lake Street and 12th Avenue Courts. Students, Millberry members and UCSF employees are invited to sign up at the Millberry Athletic Desk. Cost is $2 for students; $3 Millberry members; $5 employees. Call Alan Tower, x61800, for details.

The Medical Center's Department of Nursing will hold its annual "Fun Run" in Golden Gate Park on Saturday, May 31, at 9 a.m. This year there will be two officially marked courses for 5K and 10K events.

The race will include cash prizes to winners in each of the six age divisions and the fastest four-person team, T-shirts to every runner, raffle prizes, and competition between teams of nurses from UCSF, SFGH and Mount Zion.

The theme of this year's run is "Running Today for Your Tomorrow." Registration fee is $8; $10 day of the race. The Department of Nursing also needs volunteers to help at the race. For registration and volunteer information call x62252.

The next campus blood drive will be held on Monday, April 28, in the main lounge of Millberry Union, 8 a.m. to 3 p.m., and the mezzanine level of the School of Nursing building, 11 a.m. to 5:30 p.m. Donors are asked to bring personal identification. For further information call x64013.

Blood donation raffle prizes will be a pair of $50 gift certificates for the Washington Square Bar & Grill, donated by the UCSF Associated Students and the restaurant.

The alumni associations of the schools of Dentistry and Pharmacy will stage contests among the four classes in each school, with cash prizes being awarded to classes that donate the most blood.

A record 240 pints of blood were donated during the campus blood drive held in January. Third-year medical student Gerald Gollin and third-year dental student Steven Yunge were winners of the January raffle. First place for the most blood donated went to the School of Dentistry first-year class, Dental Hygiene first-year class, and the School of Pharmacy first-year class. Second place went to Dental II and Pharmacy III; third place Dental III and Pharmacy II.

For the first time the School of Medicine will hold courses and special one-hour sessions on how to teach medical students. The types of courses and sessions and the best times for them to be held will be determined by a questionnaire to be filled out by interested faculty members, students and others. For a questionnaire contact Barbara Gastel, Box 0410, Room S 224. Those filling out the questionnaire will be given first choice of courses.

UCSF Hospitals Auxiliary is sponsoring a special cultured pearl sale on Wednesday, May 7, in the Medical Sciences lobby from 8 a.m.-5 p.m.

The sale will include pearl earrings, charms, bracelets and necklaces at reduced prices. A percentage of the total sales will benefit the Hospitals Auxiliary. Mastercard, VISA and checks will be accepted with proper identification. For more information call x64906.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period May 10-23, 1986 will be **Tuesday, Apr. 29, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x61541 or x62557.

The first major UCSF cultural function at the UCSF-Laurel Heights campus will be a benefit for the Friends of the UCSF Child Care/Study Center on Friday, May 30, at 7:30 p.m., in the auditorium at 3333 California Street.

Donald Pippin's San Francisco Pocket Opera, a 20-year tradition in the city, will present an evening of songs from Gershwin's "Okay!" and favorite arias. Songs will include "Someone to Watch Over Me," "Do, Do, Do, What You've Done, Done, Done Before," "Fidgety Feet" and "Clap Yo' Hands."

A reception hosted by Chancellor & Mrs. Julius R. Krevans will follow the performance. Tickets are $50. For further information call Katie Menees, x64421.

New board officers for the Friends of the Child Care Center are: Sallie Allen,

Douwe D. Breimer, PhD, professor and chair, Center for Biopharmaceutical Sciences, University of Leiden, The Netherlands, is the 1986 Sidney Riegelman Lecturer. Breimer will be on campus the week of April 28 to present:

- Mon., Apr. 28, 4-5 p.m., HSW 300: "Rate-Controlled Rectal Drug Delivery in Man."
- Tues., Apr. 29, 4-5 p.m., HSW 300: "Nifedipine: Clinical Pharmacokinetics and Hemodynamic Effects."
- Fri., May 2, 11 a.m.-noon, S 1364: "Assessment and Prediction of Oxidative Drug Metabolizing Enzyme Activity in vivo."

Breimer has been with the University of Leiden since 1975 studying pharmacokinetics, biopharmaceutics, drug metabolism and bioanalysis, including the "first-pass" effect of high-clearance drugs after rectal administration. He is scientific secretary of the International Pharmaceutical Federation (IPF) and secretary of the IPF Board of Pharmaceutical Sciences.

The Riegelman Memorial Lectureship honors the late professor of pharmacy and pharmaceutical chemistry and associate dean for research services, School of Pharmacy, who died in 1981. A member of the UCSF faculty for 33 years, he served as chair of the Department of Pharmacy from 1967 to 1978 and was recognized as a world authority in pharmacokinetics—the science which studies the absorption, distribution and metabolism of drugs in the body, as well as their excretion.

UCSF will hold a public hearing on the draft Environmental Impact Report (EIR) for the University's proposed new campus library building on Tuesday, April 29, at 7:30 p.m. in Toland Hall.

The campus library is proposed as a building of 120,000 gross square feet on the north side of Parnassus adjacent to Millberry Union. It will be a terraced building stepping down the sloping site between Parnassus and Irving Street and landscaped to minimize its size as viewed from the surrounding area.

The public hearing will provide interested individuals the opportunity to express their views and comment on the draft EIR, as well as record oral testimony on the perceived effects on the local environment. Written statements also will be accepted into the hearing record. A transcript of the hearing will be included in the final EIR.

The draft EIR now is available to any member of the public. Please call x62911 or pick up a copy from the Chancellor's Office, 145 Irving Street.

Written comments on the draft EIR will be accepted through Monday, May 12, at the above address.

The final EIR, which will respond to all the comments, will be available for public review for a 30-day period from June 16 to July 16, 1986 after which it will be presented to the UC Board of Regents for certification.

For the first time ever the Charlotte Baer Memorial Clinical Faculty Award will be given to two UCSF clinical faculty members during the Association of Clinical Faculty meeting on Thursday, May 8, at 6 p.m. at the St. Francis Yacht Club.

Morton A. Meyer, MD, and W. Gordon Peacock, MD, will be honored with the award, presented annually to a member of the UCSF clinical faculty for outstanding service to the School of Medicine. It is named for the late Dr. Baer, a 1941 School of Medicine graduate and longtime clinical faculty member, who died in 1973.

Meyer has been with UCSF for some 40 years and has been chair of the

president; Catherine Gilliss, past president; Helen Pillsbury Johnson, president-elect; Betty Austin, secretary; Farrell Thomas, treasurer; and Miriam Gould, MD, vice president for advocacy. New members include Eric Goldman, MD, Jody Hurwitz and Charles Ordahl, with new newsletter editor Marjorie Campagna-Pinto.

Governor George Deukmejian visited the campus in April to be briefed on AIDS research which is being conducted here and on the other UC campuses and to tour two AIDS research laboratories.

The Governor was told about the 27 different AIDS research projects, involving 31 principal investigators on this campus and at SFGH and the VAMC. UC has received $13.6 million from the state over the last 3 years with UCSF receiving some $6 million. The Governor said that he will add another $2 million this year to the UC budget for AIDS programs.

UCSF projects range from the epidemiology of how AIDS is spread, to clinical trials of experimental drugs and basic studies of the AIDS virus and cells of the immune system.

In addition to state funding, UCSF and its affiliated hospitals have received this year some $7.2 million from local government agencies, the federal government and private donations.

Speaking at the Governor's briefing were UCSF's Senior Vice Chancellor David Ramsay; Vice Dean William Hamilton; Merle Sande, chair, UC Systemwide Task Force on AIDS; oral biologist John Greenspan; virologist Jay Levy; Paul Volberding, director, SFGH AIDS Activities; pediatrician Diane Wara; and Constance Wofsy, codirector, SFGH AIDS Activities.

The annual Chancellor's Summer Youth Program will be held from Monday, June 23, to Friday, August 15. Coordinated by the Personnel Department, the program provides jobs and training at UCSF to low-income high school students in San Francisco.

Students will be employed for a total of 20 hours per week at $3.35 per hour. The program is funded by the federal government and administered by the SF Unified School District and the Private Industry Council of San Francisco, Inc.

Departments wishing to participate in the program are asked to call Robert Rojas, program coordinator, at x65357, by Thursday, May 1.

clinical faculty in the Department of Medicine since 1984. He has won several UCSF honors, including outstanding teacher in 1971 and 1972 and honorary member of the Gold-Headed Cane Society in 1982.

A member of the UCSF family since 1968, Peacock completed his residency here in 1970 and has been an associate clinical professor, ob/gyn, since 1980. He presently teaches ob/gyn surgery to UCSF medical students and residents during their Children's Hospital rotation. He is former president of the Association of the Clinical Faculty.

For further information on the annual meeting and dinner call x61471.

UCSF neuroscientist David A. Greenberg, MD, PhD, has been selected as a Sloan Research Fellow. A total of 12 UC investigators were chosen this year to be in the program—6 from UC-Berkeley, 2 from UCLA, and 1 each from UCD, UCI, UCSF and UCSB.

Greenberg has been an assistant professor of neurology for the last four years. Under the Sloan fellowship, he will receive $25,000 to continue his studies on calcium channels in neural cells.

The Sloan Research Fellowship Program began in 1955 as a means of encouraging basic research by young scholars at a time when their teaching duties can be most pressing and when other support is difficult to obtain. Ten Sloan fellows have gone on to win Nobel prizes. The average age of the 1986 fellows is 32.

Tickets still are available for a special show benefiting the Rosalind Russell Medical Research Center for Arthritis on Sunday, May 4, from 3 to 7 p.m. at a private residence in Hillsborough.

Pianist/vocalist Michael Feinstein, who took San Francisco and New York by storm last year, will perform show tunes by Gershwin, Rodgers & Hart, Kern, Sondheim, Berlin and others.

All proceeds will go towards arthritis research. For tickets at $125 each call x61141.

A public information meeting on the draft Environmental Impact Report (EIR) for the UCSF-Laurel Heights plan will be held on Thursday, May 8, at 7 p.m. in the Chancellor's Room on the UCSF-Laurel Heights campus, 3333 California Street. A public hearing on the draft EIR will be held on Wednesday, May 14, also at 7 p.m., in the UCSF-Laurel Heights conference center.

The draft EIR will be available for review by agencies, organizations and any interested individuals at the May 8 meeting, through the beginning of June from the Chancellor's Office at 145 Irving Street, or by calling x62911.

The public may respond in writing to the draft EIR during the public review period. Comments or questions regarding the draft should be sent to Barry Clagett at the above address.

All comments and questions submitted during the review period or raised at the May 14 public hearing will be included in a final EIR prepared by the University. When the final EIR is completed, it will be available for a 30-day review before being submitted to the UC Board of Regents for certification.

Orthopaedic surgeon Vert Mooney, MD, will be the visiting professor and featured speaker at the Seventh Annual Verne T. Inman Lectureship and the 21st Annual Scientific Program of the LeRoy C. Abbott Orthopaedic Society on Thursday and Friday, May 15 and 16.

Mooney has been professor and chair of orthopaedic surgery at the University of Texas Health Science Center for the last nine years. While on campus he will present:

- Thurs., May 15: "How Do We Bend Connective Tissue Our Way?" Cole Hall. 11:30 a.m.-12:30 p.m.
- Fri., May 16: "Lumbar Spine Assessment." Cole Hall. 11:45 a.m.

Mooney's research includes prosthetic, orthotic and spinal instrumentation development, transcutaneous neuroelectric communication, and mechanisms for edema control.

The Inman and Abbott programs are sponsored by the Department of Orthopaedic Surgery and the LeRoy C. Abbott Orthopaedic Society in recognition of two late departmental chairmen. Inman, who died in 1980, was internationally known for his work on human locomotion. He established UCSF's Biomechanics Laboratory in 1957, the first laboratory of its kind anywhere devoted to this discipline, and served as its director for the next 16 years. The Abbott Society was founded in 1965 in honor of the first department chair, who served from 1936 to 1957.

Continuing education credit is available. For further information call x62495.

The Medical Center's Nuclear Medicine section is having an open house in its new quarters, Room L 340, on Friday, May 2, from 3 to 6 p.m. The campus community will have a chance to tour the new facilities, including the imaging and in-vitro areas, and to see how radioactive materials are monitored and handled safely. Faculty and staff will be available to answer questions.

IN MEMORIAM

Carrol K. Price. A UCSF carpenter and locksmith in the Physical Plant for 30 years, he supervised the lock & key shop from 1979 to 1984. A 1981 recipient of the Chancellor's Special Performance Award, he retired from the University in August 1984.

Raymond A. Tobey. A member of the campus community since 1974, he first worked as a phlebotomist in the Clinical Laboratories. In 1976 he became a supervisor with the Department of Pharmacy and directed the IV Additive Service, and in 1980 became a senior storekeeper when portions of IVAS were incorporated into the Materiel Services Department. The Department of Materiel Services will hold a memorial mass in his honor on Tues., Apr. 29, at 12:10 p.m. at St. John of God Church, Fifth & Irving.

US Surgeon General C. Everett Koop, MD, joined three Bay Area activists in a news conference at the Moscone Center in early April to announce the publication of a handbook to guide communities in the fight for nonsmokers' rights.

The authors of *Legislative Approaches to a Smoke-Free Society* are Stanton Glantz, MD, UCSF associate professor of medicine, who is president of Americans for Nonsmokers' Rights; Peter Hanauer, founding president of Americans for Nonsmokers' Rights; and journalist Glenn Barr.

The book contains not only a summary of the documented health hazards of second-hand smoke, but tips on how to write legislation, the basics of grassroots organizing and political lobbying. A copy may be obtained through the American Nonsmokers' Rights Foundation, 2054 University Avenue, Suite 500, Berkeley, CA 94704, 841-3032.

The Endocrine Clinic at the Ambulatory Care Center is seeking women volunteers, 45-60 years of age, who would like to participate in a two-year study on osteoporosis and low-dose estrogen replacement therapy.

Approximately 50 women who have become menopausal within the last four years, and who are not currently taking estrogen, are needed for the study. Cyclic Ogen (estropipate) and daily calcium supplements will be given. Blood pressure, serum lipid levels, and bone density measurements will be monitored during routine outpatient visits. Annual endometrial biopsies also will be performed. For further information call x65125.
